DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-8, drawn to a flexible substrate and a liquid crystal display module comprising the flexible substrate, classified in class 349, subclass 150.
 - II. Claims 9 and 10, drawn to a method of manufacturing a liquid crystal display module in which a liquid crystal substrate is connected with a flexible substrate, classified in class 349, subclass 192.

The inventions are distinct, each from the other because:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the liquid crystal display module comprising a flexible substrate can be made by another process in which a temperature difference is produced to compensate the different in thermal expansion coefficient instead of using a test flexible substrate for measuring an amount of a size change in each terminal block and determining a compensation amount of the terminal pitch of each terminal block.

Art Unit: 2871

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thoi V. Duong whose telephone number is (571) 272-2292. The examiner can normally be reached on Monday-Friday from 8:30 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Kim, can be reached at (571) 272-2293.
